Information about Cookies

Your Privacy

MURRELEKTRONIK AB protects your personal information. This document is designed to help you understand which information we collect about you and how we use it.

What is a cookie and how we use it

A cookie is a simple text file that is stored on your computer or mobile device by a website's server and only that server will be able to retrieve or read the contents of that cookie.

It will contain some anonymous information and it allows a website to remember some of your data.

Why do we use cookies?

We use cookies to allow our system to identify your device and to offer you various functions, such as facilitate browsing this site and to ensure its correct use, to facilitate the access to services that require authentication, as well as to find out which areas of a site have been visited.

The cookies used on this site are pemanent(they remain / are stored on the hard drive of the personal computer of the user/visitor until they expire) and session cookies (that will not be permanently stored on the user's/visitor's computer and will be deleted when the browser is closed).

The company uses cookies also for other purposes, such as

- To identify you the moment you login to this site. This way, the company can give you recommendations about products, visualize personalized contents and make other functions and personalized services available;
- Track the preferences set by you;
- Track the articles you stored in your shopping cart.

Different types of cookies

TECHNICAL COOKIES

- Session or transient cookies: used for the sole purpose of enabling the transmission of a communication via an electronic communication network to provide a service upon the user's explicit request
- Analytics – directly used by the provider of the site to collect information about the number of visitors and how the site is used.
- Functional cookies: they enable the user to browse while allowing us to remember choices you make (example: language)) with the purpose to improve our service

USER PROFILING COOKIES

Targeted at user profiling and used in order to send advertising messages in line with the preferences set by the user while browsing this site.

How to manage cookies

It is possible to modify your browser settings in order to inform you when cookies are placed. It is also possible at any time to eliminate cookies that have already been saved in the settings of your browser. It is possible to select if you want or not accept the cookies that are placed by our website on the page with the settings for the cookies. If you decide to disable some of the cookies, this may prevent you from taking full advantage of our website.

Do I have to accept cookies to be able to visit the website?

No, not necessarily. It is possible to disable cookies, including those that are used by our website, by simply deactivating the cookie function in your browser or by refusing the consent to the use of cookies. However, some parts of the website, same as with other web pages, may not function properly if this function has been disabled. For example in case of access to areas that require passwords the website will be not able to proceed in absence of the login information supplied by the cookie.
